January 2023

## Englewood Drive/Gorham Drive-Safe Street Demonstration Pilot

Englewood Drive and Gorham Drive are planned mill and overlay street projects for spring/summer of 2023. Based on existing intersection geometry and reported resident concerns, the City of East Grand Rapids Department of Public Works Engineering Team has evaluated an alternative intersection design to improve intersection geometry and provide for more clear assignment of right-of-way as well as pedestrian crossings as noted below.

The Department of Public Works will be installing a demonstration pilot for proposed improvements as a way for residents to experience a potential change in advance of formal approval consideration and provide feedback/input. The demonstration pilot will be in place during the months of January and February (possibly continuing into April). Feedback/input can be submitted directly to the Department of Public Works via email at: [publicworks@eastgr.org](mailto:publicworks@eastgr.org). All correspondence submitted will be provided to the City Commission as they consider this potential reconfiguration at the upcoming February 20 or March 6 City Commission Meetings where street construction project approval will be considered.

For questions, please contact the Department of Public Works at 616-940-4817.
