April 21, 2023

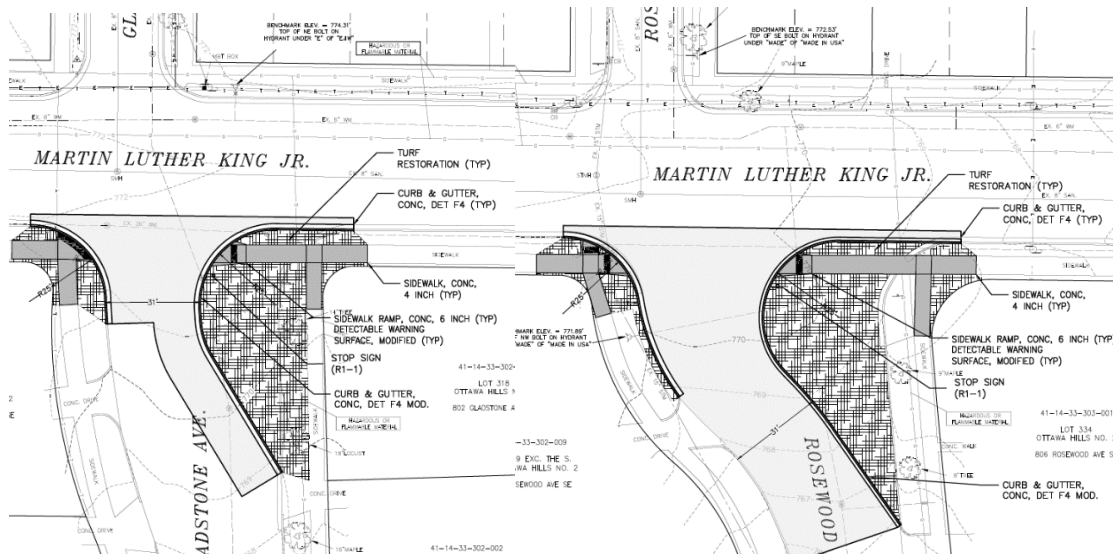

Dear East Grand Rapids Resident/Property Owner:

Martin Luther King Jr. St. from Plymouth Rd. to the west city limit is planned as a mill and overlay street project that will be commencing soon. The City Commission recently approved a modified reconfiguration of the traffic island demonstration pilot based on resident feedback. Feedback and experiences related to the two demonstration pilot concepts at Martin Luther King Jr. St. and Rosewood Ave. and at Gladstone Ave. noted that there was and is a level of concern based on roadway delineation and traffic direction related to experiences and observations. The revised concepts that are approved eliminate the two-two-way traffic legs for each intersection, while aligning each to northern cross streets, while still narrowing pedestrian crossings.

Demonstration Pilot Configurations for Martin Luther King Jr. St. and Rosewood Ave. and at Gladstone Ave.-Below

Revised/Approved Configurations Based on Feedback-Below
